

LFL9004

Features

Our warm white LED Floor Light is specially designed to highlight areas like bars, pictures etc.

The LED tube light is a flexible décor or floor light. Groups of six LEDs are mounted on a printed circuit board. The boards are connected in a row with a space of 7,5 mm between. Different colour temperatures are available. The complete assembly is housed in a watertight PTFE-tube. The LFL9004 light is ideal for installation in narrow spaces. It can also be used as a LED-floor or kick-strip light. The LFL9004 is PWM dimmable through the supply lines.

- + White LED-light housed in a PTFE-tube
- + Various colour temperatures
- + Flexible form - mounted with special clips
- + Supply voltage 28 V DC
- + Power consumption 14 W / m

Mechanical dimensions	
length	500 mm to 5.000 mm (in steps of 50 mm)
diameter	max. 0,39" (10 mm)
bending radius	max. 200 mm
weight	100 g / m
