

TR0140

Transformer-Rectifier,
application designed for Airbus A318, A319,
A320, A321, A330, A340 and Boeing B777

TR0140

Key features

Electrical

- + power factor passive, > 0,77 at 5 A

- + electrical receptacle MS24264R14B7PN / E110R14B7PN

Mechanical

- + thermal protection disconnection at 90° C / 194° F reconnection at 60° C / 140° F

- + fully qualified acc. to RTCA-DO160

- + robust anodized aluminum housing

Other

- + MTBF > 60.000 OH

Technical data

Mechanical dimensions

length	180 mm
width	130 mm
height	55 mm
weight	1640 g

Electrical data

input voltage	115 V AC / 400 Hz single phase
input current	max 1,8 A
output voltage	28 V DC nom. [26 V DC at 5 A]
output current	max. 5 A
